

We pay monthly to have an unlisted number. Through merchants we have been involved with, our number has been out and everyone calls. I have registered, but I have heard that you do not believe that calls from radio and TV stations are telemarketing calls. I disagree! I DO believe that these calls from the TV and radio stations are just like telemarketing calls. I DO NOT want to be called by them - they are a nuisance. Nothing is more disturbing, than to come home from work, trying to rest or eat, and these telemarketing (including radio and TV stations) calls ring through.  
Please put a stop to these calls.  
Thank you,  
Cynthia Zerwas
